

****Administrative Court Order Summary:
Interim Relief Request by the 13 Petitioners in the Layan Area****

November 27, 2025.

1. Overview of the Petitioners' Requests

The 13 petitioners requested the Court to issue an order to suspend or delay the issuance of construction permits for several projects, including Ayana, Layan Verde, and Sun Hills. They also requested the Court to suspend construction activities in projects that have received EIA approval but have not yet obtained construction permits, until a final judgment is issued.

2. Key Legal Findings by the Court

The Court concluded that:

- The issuance of construction permits is within the authority of the local administrative body (Or Bor Tor), which must evaluate applications in accordance with the Building Control Act and relevant laws.
- The Court does not have the authority to prohibit or suspend a government agency from issuing such permits.
- Therefore, the petitioners' requests do not meet the legal criteria required for the Court to grant interim relief.

3. Court's Ruling

The Court ordered:

3.1 Dismissal of all interim relief requests made by the 13 petitioners, including the requests to:

- Suspend or halt the issuance of construction permits
- Suspend or delay construction activities in the related projects

3.2 No project is subject to a court-ordered suspension or delay.
